CERTIFIED MAIL - RETURN RECEIPT REQUESTED

April 8, 2014

Mr. Connell R. Rader
President
Enmark Energy, Inc.
104 First Choice Drive, Suite A
Madison, MS 39110

CPF 2-2013-6012M

Dear Mr. Rader:

On August 12-15, and August 27, 2013, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA), Southern Region, Office of Pipeline Safety (OPS) inspected the Enmark Energy, Inc. (Enmark) Sandhill and Air Liquide Carbon Dioxide (CO₂) pipelines in Madison, Mississippi, pursuant to Chapter 601 of 49 United States Code. As a result of the inspection, OPS issued a Notice of Amendment (NOA) on December 6, 2013.

The OPS Southern Region received, reviewed, and responded to Enmark's January 30, 2014, submittal of revised procedures. That is, in a letter dated March 6, 2014, the OPS Southern Region explained the deficiencies in the revised procedures and asked you to resubmit.

The OPS Southern Region received and reviewed Enmark's second written response to the NOA dated March 28, 2014, and find Enmark's amended procedures adequate. This letter is to inform you that Enmark has complied with the terms of the NOA and that no further action is necessary with regards to the NOA. This case is now closed.

Please be advised that this letter refers only to the NOA (**CPF 2-2013-6012M**) and not to any other PHMSA pending cases. Also be advised that nothing herein states or implies that the Enmark Integrity Management (IM) Program and Operator Qualification (OQ) Program meet the requirements of the federal pipeline safety regulations or that the IM and OQ Programs are approved. The pipeline system and the IM and OQ Programs remain subject to inspection by PHMSA.

Sincerely,

Wayne T. Lemoi
Director, Office of Pipeline Safety
PHMSA Southern Region
